Figure 4.1 for Question 4

Frequency of wave direction and wave height at Marina di Pisa, Italy,
May 2008–May 2009

key

---10%--- frequency

wave height (m)

Figure 7.1 for Question 7

Changes in the factor of safety* on a slope

* Factor of safety is the ratio of resisting forces (strength) to driving forces (stress) acting on a slope. A factor of 1.0 = equilibrium, >1.0 = stability and <1.0 = instability.

The boundaries and names shown, the designations used and the presentation of material on any maps contained in this question paper/insert do not imply official endorsement or acceptance by Cambridge International Education concerning the legal status of any country, territory, or area or any of its authorities, or of the delimitation of its frontiers or boundaries.

Permission to reproduce items where third-party owned material protected by copyright is included has been sought and cleared where possible. Every reasonable effort has been made by the publisher (Cambridge University Press & Assessment) to trace copyright holders, but if any items requiring clearance have unwittingly been included, the publisher will be pleased to make amends at the earliest possible opportunity.

To avoid the issue of disclosure of answer-related information to candidates, all copyright acknowledgements are reproduced online in our Copyright Acknowledgements Booklet. This is produced for each series of examinations and is freely available to download at www.cambridgeinternational.org after the live examination series.

Cambridge International Education is the name of our awarding body and a part of Cambridge University Press & Assessment, which is a department of the University of Cambridge.
