INSTRUCTIONS FOR EXAMINERS

Task setting and format of the assessment

In preparation for the speaking assessment the learner will have undertaken an independent research project. The task related to the theme-based stimulus card will be set by WJEC, but the candidate will have a choice from two cards. The speaking assessment will be conducted at centres by a visiting examiner appointed by WJEC. He/she will conduct and mark the assessment which will be digitally recorded.

During preparation for the speaking assessment candidates must complete the independent research project pro-forma providing the title of their research project and outlining up to ten key points **in English**. The purpose of the pro-forma is to provide the visiting examiner with some prior information about the candidate's chosen independent research project. The pro-forma must be sent by the centre to the visiting examiner at least three weeks before the assessment. The candidate may bring a copy of the pro-forma to the speaking assessment which he/she can use as a prompt if necessary for the presentation and discussion. The pro-forma is an aid to memory only and will **not** provide linguistic support in the language of study.

Learners are **not** permitted to choose for their independent research project any of the literary works or films which they have studied for their written assessment in Component 3.

The assessment will comprise the following tasks:

Task 1 – Presentation and discussion on candidate's independent research project

- (a) Each candidate will give a spoken presentation in the language of study of his/her independent research project. The presentation will last **2 minutes**. If the presentation lasts longer than the allocated time the visiting examiner will interrupt the candidate with a question related to the independent research project. This will indicate the beginning of the discussion. There are no additional marks available for a presentation which extends beyond 2 minutes.
- (b) A discussion in the language of study in which the candidate responds to questions relating to their independent research project set and asked by the visiting examiner. The discussion will last **9–10 minutes**.

After Task 1 has been completed the candidate will be given 5 minutes' preparation time in the examination room with the visiting examiner to prepare for Task 2 – the theme-based discussion.

Task 2 – Theme-based discussion

A discussion in the language of study based on a stimulus card containing an image with related text on one of the sub-themes, as set out in the A level specification. The visiting examiner will offer the candidate two stimulus cards. The candidate must pick one of these cards and he/she will then prepare the discussion point on that stimulus card during the allocated preparation time.

At the end of the 5 minutes' preparation time, the visiting examiner will initiate a discussion with the candidate based on the stimulus card he/she has prepared. After the candidate has responded to the discussion point on the card, the visiting examiner will then ask the candidate one further question. This supplementary question will be **unseen**.

At the start of the discussion, candidates must make reference to information in the stimulus text, to show the examiner that they have understood the material. Candidates can talk about France or French-speaking countries/communities, depending on the context in which they have studied the themes or sub-themes. **This does not apply to the country-specific theme**. This instruction will be stated on the front of the stimulus card.

The candidate will be required to ask the visiting examiner **at least two** questions. Should the candidate omit to ask any questions during the assessment, the visiting examiner will ask the candidate in the language of study whether he/she has any questions to ask. If there is time within the discussion, the examiner will explore other points related to the sub-theme. The examiner will also follow up points raised by the candidate during the discussion.

Task taking

On the day the assessment is conducted, each candidate will arrive at the appointed time for the speaking assessment with the visiting examiner. **There will be no formal preparation time before the assessment begins.**

Candidates are not permitted to use dictionaries in any part of the assessment.

If the candidate has chosen to use the independent research project pro-forma as an aid to memory, he/she will show it to the visiting examiner before the assessment begins. This is to ensure that it only contains notes in English. A pro-forma found to contain notes in the language of study will be retained by the visiting examiner and the candidate will not have access to it during the assessment. The assessment will commence with the candidate's presentation of the independent research project which will last a **maximum of 2 minutes**. This will then be followed by a discussion with the visiting examiner based on the project lasting **9–10 minutes**. At the end of the discussion on the presentation, if the pro-forma has been used by the candidate it will be handed to the visiting examiner.

The visiting examiner will then show the candidate two theme-based stimulus cards. The candidate will choose which card he/she would like to prepare. **The candidate will have sight of the two cards when choosing between them.** The candidate will be given **5 minutes' preparation time** in the examination room with the visiting examiner. During the preparation time the candidate may, if he/she wishes, make notes in the language of study or English on a separate piece of paper, **not** on the card. The candidate may refer to these notes during the assessment of the theme-based stimulus card. The notes are an aid to memory and **must not** constitute complete and continuous sentences. Reading out whole sentences or a complete text will have a detrimental effect on a candidate's spontaneity.

The candidate will hand the notes to the visiting examiner at the end of the assessment. The visiting examiner will keep the notes and any pro-forma used by the candidate.

Timings for each part of the assessment must be adhered to. Any speaking evidence which exceeds these timings will not be marked.

Conduct of the assessment

Candidates will be allowed only **one** attempt at the assessment. Once the recording begins it cannot be paused or stopped during the assessment of either Task 1 or Task 2. The visiting examiner will leave the recording running during the 5 minutes' preparation time allocated to the candidate prior to the assessment of Task 2. The only circumstances in which a candidate can be re-tested are if there is a technical malfunction during the assessment (so that, for example, the assessment has not been recorded or is inaudible) or an incident occurs beyond the visiting examiner's control which prevents the completion of the assessment. In any such event the visiting examiner will inform WJEC immediately and inform the Examinations Officer at the centre.

The examiner must ensure that each candidate is given the cards in the order as listed in the grid below. If, however, one of the cards in the candidate's set contains content that the candidate has covered in his/her independent research project, the examiner can choose an alternative set of cards. Should there be more than 24 candidates in a centre, start the card grid order from the beginning.

GCE A LEVEL FRENCH
SUMMER 2022 MARK SCHEME
COMPONENT 1: SPEAKING (60 MARKS)

Principles of Marking

Conduct of the Speaking assessment

Examiners are required to familiarise themselves with section 3.2 of the specification.

General Advice for Visiting Examiners

You are asked to read and digest thoroughly all the information in the stationery pack.

Particular attention should be paid to the following instructions regarding marking:

- as an examiner you must be positive in your approach. Look for opportunities to reward rather than penalise. Candidates who use strategies such as adjusting the message, circumlocution, self-correction or repair strategies should not be penalised
- Task 1: Independent research project – make sure you are familiar with the assessment grids for the independent research project
- Task 2: Themed card – make sure that you are familiar with the assessment grid for marking the stimulus card and that you consider the marks and descriptors carefully when awarding a mark for each assessment objective.

Timings for each section of the assessment must be adhered to. Any speaking evidence which exceeds these timings will not be credited.

If a candidate's speaking assessment falls short of the stipulated timings, the candidate may self-penalise as it is likely that there will not be enough speaking evidence to access the full mark range.

As the examiner you must present the two theme-based stimulus cards using the grid on page 4. The candidate must choose which of the two cards he/she wishes to prepare for Task 2.

Applying banded mark schemes (Speaking)

Banded mark schemes are divided so that each band has descriptors for the performance level of that band.

Stage 1 – Deciding on the band

When deciding on a band for each assessment objective, the assessment should be viewed holistically. Beginning at the lowest band, you should look at the descriptors for that band and see if they match the qualities shown in the candidate's response. If the descriptors at the lowest band are evidenced, you should move up to the next band and repeat this process for each band until the descriptors match the response.

If a candidate's assessment covers different aspects of different bands within the mark scheme, a 'best fit' approach should be adopted to decide on the band. For instance, if the response is mainly in band 2 but with a limited amount of band 3 content, the mark awarded would be close to the top of band 2 as a result of the band 3 content. Small omissions in some parts of their response may not negatively affect the mark awarded.

Stage 2 – Deciding on the mark

Once the band has been decided, you can then assign a mark. WJEC will provide standardising material to be used as reference material throughout the assessment period.

When marking, you can use this material to decide whether a candidate's response is of a superior, inferior or comparable standard to the examples provided. You are reminded of the need to revisit the standardising material as you apply the mark scheme in order to confirm that the band and the mark allocated are appropriate to the response given.

When you are marking the candidate's responses to the stimulus card you should consider the indicative content given for each card. However, you **must** bear in mind that the indicative content is **not exhaustive** and is for guidance only. Reward all valid responses.

The indicative content is given on each of the following stimulus cards to assist with marking.
